

Defining our SCV Vision

1 Understanding SCV

What does supply chain viability mean for us?

💡 Card Set: [SCV in a Nutshell](#)

2 Key stakeholders and their requirements

Which stakeholders are the most important? What is their main interest (E, R or S)?
What do they expect from our supply chain?

Efficiency

☐

Resilience

☐

Sustainability

☐

💡 Printout: [Stakeholder Map](#)

8 Key insights and next steps

Complete this section at the end of the workshop.

What were the key insights from the workshop?

What are our next steps?

3 Our SCV vision by [year] _____

What should our supply chain look like in year _____?

Efficiency

☐

Resilience

☐

Sustainability

☐

Our vision in one sentence:

💡 For inspiration, check the card set [SCV Use Cases](#)

How do we achieve Supply Chain Viability?

4 Identifying trade-offs

Which trade-offs are the most important to us?

 Card Set: **SCV Trade-offs**

5 Developing our own strategies

How can we solve or balance these trade-offs? Come up with your own ideas.

7 Enablers and digital tools

Which digital tools or enablers could strengthen our strategies and help us implement them effectively?

 Printout: **SCV Enablers**

6 Cross-check with the strategy bundles

Which of the strategies on the cards could help us to solve or balance the trade-offs? Match relevant strategy bundles with trade-offs.

 Card Set: **Strategy Bundles**
